Sanctioning the proposal.

Letter No A5 C 143/53-54 & 11-8-54 from the chairman, M.T.B.

5) According to the chairman's report now received, Hume pipes are proposed to be used instead of masonry near culverts in Kesara layout. He therefore requests sanction to the purchase of 9" dia x 6' long (100 in number) Hume pipes at a cost of Rs 1390-2-3 as per details noted in the letter received. Before sanction is accorded to the proposal, it is perhaps desirable to consult the C.E. whether Hume pipes can be used instead of masonry near culverts and whether they would last permanently. The chairman, B.T.B. may also be consulted whether Hume pipes have been or are being used for long and sewer

The question of using Hume pipes for drainage work is not yet considered. Hence, it is submitted for consideration whether the opinion of the C.E. may be called for on this point. The main file re use of Hume pipes for water supply is put up - please see orders communicated in letter No. L458/J.T.B:23-5-23 dt 15-4-54 according to which Hume pipes should not be used for water supply work
